👤 PROFILE

Highly motivated individual with a CDAC certification in Full Stack Development. Skilled in Java, React.js, and databases including SQL and MongoDB. Confident in my ability to make valuable contributions to your team's success.

🧩 PROJECTS

Cryptocurrency Tracker Application with Real-Time Information

Leveraging React.js, Material UI, and Chart.js for Analyzing Cryptocurrency Performance

- A cryptocurrency tracker built with React.js. View real-time information, prices, and market trends. Interactive charts powered by Chart.js. Material UI integration for a visually appealing experience. Coin Gecko API integration for accurate data.

Farmer E-commerce Web Application for Global Market Access

Collaborative Development with React, Spring Boot, and MySQL for Fair Trade and Customer Authentication

- E-commerce web application for farmers to access global markets. Built with React, Spring Boot, and MySQL. Played a role in developing the Login page. Strong proficiency in React front-end and Spring Boot back-end. Implemented user authentication and managed customer data.

🧠 SKILLS

React

State Management , Forms and Form Validation, Performance Optimization, Integration with Third-Party Libraries (e.g., React Router, Axios), Server-Side Rendering

Java

Object-oriented programming, Exception handling, Multi-threading

MongoDB

NoSQL database, Document-oriented database, CRUD operations

Bootstrap (UI Design)

Responsive design, CSS framework, Grid system
